Monge Natural Superpremium Monoprotein* Kitten Trout is a complete and balanced pet food for kittens. Specially developed for the well-being of your kitten thanks to the optimal calcium and phosphorus ratio for balanced growth. *Formulated with a single source of animal protein, with trout as the first ingredient. The formulation is enriched with XOS (Xylo-oligosaccharides), next generation prebiotics to support intestinal wellness. The inclusion of select ingredients, such as rose hip with antioxidant compounds to neutralize free radicals, and yucca schidigera to limit intestinal odours, is the result of Made in Italy research to support the quality of our kitten's life. No added dyes and artificial preservatives.

First Ingredient
